EXPERIENCE

Milestone Technologies @ Meta || *Data Center Logistics Specialist* | Altoona, Iowa *November 2024 - Present*

- Demonstrate strong problem-solving skills by resolving and escalating Meta's inventory discrepancies, conduct data analysis to ensure cycle counts are accurate and ensure an effective workflow through cleanliness and thorough organization of inventory.
- Collaborate effectively with team members to achieve client's targets, demonstrating strong teamwork yet a reliable, self-sufficient specialist
- Efficiently operate box truck transportation while achieving the highest score for driving safety procedures consistently each quarter.
- Taking initiative by assisting in training new inventory specialists and ensuring new drivers are succeeding through the training process.

The Global Career Accelerator | *Web Development Trainee* | Remote

Jan 2025 - May 2025

- Used HTML, CSS, Bootstrap, and JavaScript to create dynamic websites and web apps and build other interactive, fully-functioning web experiences
- Conducted basic UX research and created low-fidelity prototypes to inform design decisions; practiced leveraging developer documentation for efficient problem-solving.
- Demonstrated design thinking by defining problems, developing wireframes, prototypes, performing A/B testing, iterating feedback and finalizing a solution.

Probioferm | *Warehouse Technician* | Urbandale, Iowa

October 2023 - October 2024

- Demonstrated supply chain management practices by analyzing inventory levels through reports and communicating with suppliers and transportation companies to arrange inventory deliveries
- Effectively communicate with team members and executive leadership to complete company deadlines

RAYGUN | *Assistant Operations Manager* | Des Moines, Iowa

November 2017 - October 2022

- Developed accurate and proficient training programs for new employees and designed efficient workflow that increased productivity and store expansions.
- Managed a team of sales associates and store managers to meet sales expectations and solved operational problems such as inventory levels, leadership and day-to-day store operations.
- Demonstrated a strong initiative in community outreach by cold calling small businesses locally to collaborate on projects and cross sell custom design for their businesses
